

Test Set-Up Photo

Mode #	Description
1	<p>For radiated emissions above 30MHz</p>  <p>The diagram illustrates a test setup for radiated emissions. On the left, a yellow table stands on a black 'Metal Full Soldered Ground Plane'. A blue box labeled 'EUT' (Equipment Under Test) is placed on the table, with a height of 80cm from the ground plane. To the right, an 'RX Antenna' is mounted on a stand, with its 'Ant. feed point' at a height of 1~4m. A horizontal distance of '3m or 1m' is indicated between the EUT and the antenna. A 'Spectrum Analyzer / Receiver' is connected to the antenna and is shown on the ground plane.</p>
