Subject: Request for Confidentiality  
**FCC ID: QIPEHS5-US**

To Whom It May Concern:

In accordance with FCC Rules 47 CFR 0.457(d), **Cinterion** requests

Confidentiality for the following items:

1. Block Diagram
2. Schematic Diagram
3. Part List / Tune Up procedure
4. Operational Description

These items contains detailed system and equipment description and related information about the product which Cinterion considers to be proprietary, confidential and a custom design which otherwise would only released to qualified tech and is not released to the general public. Since this design is a basis from which future technological products will evolve, Cinterion also feels that this information would be of benefit to its competitors, and that the disclosure of the information in these exhibits would give our competitors an unfair advantage in the market.
