Attention: Application Examiner / Review Engineer
Subject: Request for Class II Permissive Change

Reference:

FCC ID: **QIPEHS6**
IC: **7830A-EHS6**

To: Federal Communication Commission

Please be notified that we, the undersigned, Gemalto M2M GmbH declare that the reasons for this Class II permissive change are as below:

The initial circuit diagram of Cinterion® EHS6 Rel. 3 was set up based on the final design of Cinterion® EHS6 Rel. 2 revision. The both variant builds take use of the same PCB layer stack-up and 2D dimension. The schematics of the RF part, as well as the logic unit were kept unchanged.

The most obvious difference between both products is the power signals layout optimization.

Thanks you.
Sincerely,

Thorsten Liebig
Manager Approval

Dr. Jörg Rook
Head of System Test
