

## Description of Permissive Change

The application is prepared for FCC class II permissive change by adding ENDC mode band through software enabling to its original parent application. The adding ENDC mode are n77/n78+LTE B2/5/7/12/13/14/30/41/66 and n25+LTE B12.

All models, updated versions, are electrically identical in all aspects except enabling ENDC mode.
