Request for Class II Permissive Change

FCC ID:QIPPDS5-US

Please be notified that we, the undersigned, Gemalto M2M GmbH declare that the reasons for this Class II permissive change are as below:

The final design Rev2.x of PDS5-US product was a revision from last builds of PDS5-US Rev1.x. The variant builds took use of the same PCB layer-up, 2D drawing and the hardware core. The schematics of RF part as well as the major logic unit were kept unchanged.

The noticeable minor change from PDS5-US Rev 1.x is the "emergency off circuit" added onto Rev2.x.

Sincerely,

Thorsten Liebig
Manager Approval

Dr. Jörg Rook
Head of System Test
