## Request for Class II Permissive Change

**FCC ID:QIPPD56**

Please be notified that we, the undersigned, Gemalto M2M GmbH declare that the reasons for this Class II permissive change are as below:

The final design Rev2.x of PDS6 product was a revision from last builds of PDS6 Rev1.x. The variant builds took use of the same PCB layer-up, 2D drawing and the hardware core. The schematics of RF part as well as the major logic unit were kept unchanged.

The noticeable minor change from PDS6 Rev 1.x is the "emergency off circuit" added onto Rev2.x.

Sincerely,

Thorsten Liebig  
Manager Approval

Dr. Jörg Rook  
Head of System Test
