2007-12-07

TO WHOM IT MAY CONCERN

Cover Letter

FCC ID: QISE870, granted on 2007-12-07, model: E870

Hereby we request for PCII.

The difference between original filing (3GPP Rel. 5) and this is that HSUPA (3GPP Rel. 6) functionalities are enabled now.

There are no changes in design, circuitry or construction. Therefore test results of the original grant continue to be representative of and applicable to the equipment bearing this identification.

We attest that above changing are not relevant for any RF behaviour subject to regulatory items and that above changing are covered with new Part 22 / 24 test report

As per SAR Measurements Procedures for 3G devices Version 2.0 from October 2007 new SAR tests are not required since power for HSUPA is same or lower for all subtests and SAR values of original application do not exceed 75% of limit.

The following new exhibits will be uploaded:

- Test reports 22/24
- External Photos

Sincerely,

Zhang Xinghai

EMC Laboratory Manager

For and Behalf of:

Huawei Technologies Co., Ltd.

A handwritten signature in black ink that reads "Zhang Xinghai".
