

Huawei Technologies Co., Ltd.

ELE-L29 (FCC ID: QISELE-LX9) is a reference device based on ELE-L04 (FCC ID: QISELE-L04), the difference between them shows in the below table:

Therefore the test plans confirmed as below

1. For SAR, SGS test for LTE band 2/4/7 and check for the worst cases mode and SIM2 of the referenced test report SYBH(Z-SAR)20181115007001-2 for ensuring that SAR measurement for both device are almost same, so the referenced SAR value can represent this application.
2. For EMC, new test.
3. For RF, new test for LTE Band 2/4/7, other data for GSM/WCDMA/LTE refers to SYBH(Z-RF)201801115007001-2001 of ELE-L04, BT/ BLE/2.4G WIFI refer to SYBH(Z-RF)201801115007001-2003/ SYBH(Z-RF) 201801115007001-2004/ SYBH(Z-RF) 201801115007001-2002, NFC refer to SYBH(Z-RF) 201801115007001-2006 respectively.

	Model	ELE-L04	ELE-L29
Licensed Frequency	LTE BAND	FCC Band: B2/B4/ B5/B7/B12/B17/B26/B38/ B40(2305~2315MHz/2350 ~2360MHz)/B41 (2535~2655MHz) /B66	FCC Band: B2/B4/ B5/B7/B12/B17/B26/B38/ B40(2305~2315MHz/2350 ~2360MHz)/B41 (2535~2655MHz)
	UMTS BAND	FCC Band: B2/B4/B5	FCC Band: B2/B4/B5
	GSM	FCC Band:	FCC Band:

		B2/B5	B2/B5
	IC	the same	the same
