Safety Precautions

Please read the safety precautions carefully to ensure the correct and safe use of your wireless device. For detailed information, refer to the section "Warnings and Precautions".

Do not switch on your phone when it is prohibited to use mobile phones or when the phone may cause interference or danger.

Do not use your phone while driving.

Follow any rules or regulations in hospitals and health care facilities. Switch off your phone near medical apparatus.

Switch off your phone in aircraft. The phone may cause interference to control signals of the aircraft.

Switch off your phone near high-precision electronic devices. The phone may affect the performance of these devices.

Do not attempt to disassemble your phone or its accessories. Only qualified personnel are allowed to service or repair the phone.

Do not place your phone or its accessories in containers with strong electromagnetic field.

Do not place magnetic storage media near your phone. Radiation from the phone may erase the information stored on them.

Do not put your phone in a high-temperature place or use it in a place with flammable gas such as a gas station.

Keep your phone and its accessories away from children. Do not allow children to use your phone without guidance.

Use only approved batteries and chargers to avoid the risk of explosions.

Observe any laws or regulations on the use of wireless device. Respect others' privacy and legal rights when using your wireless device.

Strictly follow the relevant instructions on 57 of this manual while using the USB cable. Otherwise your phone or PC may be damaged.

Table of Contents

1 Getting to Know Your Phone

Your phone can operate in virtually all countries, automatically switching between WCDMA 2100 and GSM/GPRS/EDGE 900/1800/1900 networks. This allows you to enjoy communication wherever you use your mobile phone.

Note	The services supported by your phone should be also supported by the network from where you use the phone. For details, please contact your local network operator.

Packing List

Your phone package box contains the following:

1 One U5700 mobile phone

2 One travel charger

3 One Li-ion battery

4 One User Guide

5 One stereo headset
6 One USB data cable

◆ Icon bar

This area displays the phone status. The following table illustrates the icons that may appear on this bar.

Icon	Description
📳	The phone is in a call.
📲	Forwarding all incoming voice calls to line 1.
📱	Call line 2 is enabled currently.

Icon	Description
📱	Forwarding all incoming voice calls to line 2.
📧	You have new text messages.
📩	You have new multimedia messages.
📨	You have new PUSH messages.
📧	You have new emails.
📬	You have new voice mail.
📶	Indicates signal strength. The more horizontal bars that appear, the stronger the signal.
📶	The phone is currently in a GSM network.
📶	The phone is currently in a WCDMA network.
🏠	You are using the roaming service.
⏰	Alarm clock is enabled.

Icon	Description
⑧	Bluetooth is enabled.
📳	The normal profile is activated.
🎧	The headset is plugged in.
📡	Your PC connects to the Internet through your phone.
🔋	Indicates power level of the battery.

Introduction to the Menu

Your phone provides an extensive range of functions. You can use these functions by navigating the following menus: Entertainment, Music, Calls, Browser, Messaging, My Files, Organiser & Tools, Contacts, and Settings.

1 In the standby mode, press ● to display the main menu.

2 Press the scroll key to scroll through the menu, and then press ● to select the desired item.

3 If the menu contains further submenus, repeat step 2.

4 Use the selected function according to the prompts on the screen.

5 Select **Back** to return to the previous menu. Press ![key] to return to the standby mode.

2 Getting Started

Loading the SIM Card

Load your SIM card before using your phone. To use the SIM card properly, please read the following instructions carefully.

| Note	• Keep the SIM card out of the reach of children.
	• The SIM card and its metal contacts can be easily damaged by scratching or bending. Ensure care when you carry, load or remove it.
	• Always disconnect the charger from the phone before loading or removing the SIM card.

To load the SIM card, do as follows:

1 Position the card at the card slot entrance, making sure it is facing the same way as shown in the diagram below, with the notched corner at the down right. Then slide in as shown.
2 Fit the battery into the battery slot on back of the phone. Press the battery down until it clicks into place.
3 Slide the back cover to the phone.
Unloading the SIM Card

Only unload the SIM card and the battery after pow-
ering off your phone. Otherwise, your phone may be
damaged.
To unload the SIM card:

1 Unload the back cover out of the phone.

2 Please unload the battery according to the fol-
lowing picture.

3 Press the SIM card with one finger and slide it
out of the slot.

Charging the Battery

Before charging the battery, please read the following
precautions carefully.

Note
- When you charge the battery for the first
  time, please charge it for a minimum of 12
  hours.
- The battery discharges even while not
  being used. If you have not used it for a
  long time, please recharge it first.
- The charging time depends on the envi-
  ronmental temperature and the age of the
  battery.
- The battery can be recharged but eventu-
  ally wears out. If the battery lasts for a
  shorter time period than usual after being

charged normally, replace it with a battery
of the same type.
- Do not strike, throw or cause any kind of
  violent shock to the battery, otherwise liq-
  uid leakage, body damage, overheating,
  explosion or fire may occur.
- Charge the battery by using the charger
  supplied with your phone.

Charging with a Cable Charger

Before charging the battery with a cable charger,
ensure that the battery has been properly loaded into
your phone.
To charge the battery, do as follows:

1 Insert the plug of the charger into the connector
of the phone as shown in the following figure.

2 Plug in the connector of the charger to a power
socket.

Note • When the battery power level is very low,
the phone makes alert sounds and dis-
plays a prompt. When the battery power
level is too low, the phone will power off
automatically.
- When the battery is being charged, the
  charging indicator blinks continuously.
  When the charging indicator stops blink-
  ing, it indicates that the battery is full.

Loading/Removing a Memory Card

The phone supports a memory card (micro-SD) with
a capacity up to 2 GB.

1 Insert the memory card into the slot, as shown in
the following figure.

8

2 To remove a memory card, press the memory card gently. Now the memory card will pop up automatically. Then take it out as shown in the following figure.

Powering On/Off

Powering On

Ensure that the SIM card is in your phone and that the battery has been charged.

Press and hold [icon] to power on your phone.

Powering Off

Press and hold [icon] to power off your phone.

Access Codes

If you have set the phone password and the PIN is **ON**, you have to enter the corresponding access codes when you power on your phone. For setting and changing the access codes, please refer to "Settings/Security Setup" on page 50.

◆ **Phone Password**
The phone password is used to protect your phone from unauthorized use. The phone password is preset as 0000 for your phone.

◆ **PIN**
The personal identification number (PIN) code is used to protect your SIM card from unauthorized use. The PIN code is usually provided when you get the SIM card from your service provider. If you have not received a PIN code or if you have forgotten it, contact your service provider.

■ Powering On/Off

◆ PIN2

Some SIM cards provide a PIN2 code. Some special functions such as the "Fixed Dialer Number" are not available until you enter the PIN2 code. At the same time, your SIM card should support these functions.

◆ PUK

To unlock a locked SIM card, you need to enter the PIN Unblocking Key (PUK) code. The PUK code is usually provided when you get the SIM card from your service provider. If you have not received a PUK code or if you have forgotten it, contact your service provider.

◆ PUK2

Some SIM cards provide a PUK2 code that is used to unlock a locked PIN2 code. The PUK2 code is usually provided when you get the SIM card from your service provider. If you have not received a PUK2 code or if you have forgotten it, contact your service provider.

3 Call Service

Making or Answering Calls

Making a Video Call

You can make a video call to other person whose phone also supports video calls.

1 Enter or edit a phone number in one of the following ways:

- Enter a phone number through the keypad.
- Select a number from the **Calls** screen.
- Select a number from the **Contacts** screen.

2 Select **Options** > **Call** > **Video Call** or press ⬜ to dial.

3 Press ⬜ to end the video call.

> **Note** To delete a wrong number, press ⬜ once to delete the digit to the left of the cursor.

Making a Voice Call

1 Enter or edit a phone number in one of the following ways:

- Enter a phone number through the keypad.
- Select a number from the **Calls** screen.
- Select a number from the **Contacts** screen.

2 Press ⬜ to dial.

3 Press ⬜ to end the call.

Making Voice Calls Using SDN

You can make a voice call through speed dialing. For instructions on assigning speed dialing numbers, refer to "Contacts/Other Operations" on page 17. To make a call by speed dialing number (SDN), press and hold the number key until the phone dials the corresponding phone number.

Answering or Rejecting Calls

You can set the answer mode to **Open flip**, **Any key** or **Send key**. For details, refer to "Settings/Call Settings/Answer Mode".

The following describes how to answer or reject a call in different answer modes:

■ **Operations During a Voice Call**

Operation	Description
Answer a call	• If the answer mode is **Open flip**, open the phone. • If the answer mode is **Any key**, press any key except ▯. • If the answer mode is **Send key**, press ▯. • If the headset is in use, press the control key on the headset.
Reject a call	Press ▯ or select **Options** > **Reject**.
End a call	• If the headset is not in use, you can close the phone or press ▯. • If the headset is in use, press the control key of the headset.
Reply by message	To send a predefined message to the caller.

Note When the phone is closed and there is no ongoing call, you can press and hold the camera key to mute the ringtone of an incoming call. You can also press and hold the volume keys to reject the call.

You can also set the auto answer mode to **Immediate answer**, **Text message** or **Recorded voice**. For details, refer to "Settings/Call settings/Auto Answer".

Operations During a Voice Call

Icon Description

▯ : A call is ongoing.

▯ : The call is on hold.

Operations

During a voice call, you can select **Options** to perform the following operations.

• Hold/Resume: To hold or resume the call during a call.
• End call: To end all calls, the active call, the current call or the on hold call.
• Handfree/Earpiece: To switch between the Handfree and the Earpiece modes during a call.

- Recording started /recording stopped: to record or stop recording the conversation.
- Other Applications: To access he **Contacts** screen, the **Messaging** screen, the **Calls** screen or the **Calendar** screen.

Call Service

13

■ **Calls**

- Image quality: To set the image quality to best quality or more smooth.
- Play file: To play a media file.
- Handfree/Earpiece: Switch between the loudspeaker mode and the earpiece mode.
- Record: To record a video clip. A recorded video clip is saved to the **My Files**/**Videos** directory.
- Other Applications: To access he **Contacts** screen, the **Messaging** screen, the **Calls** screen or the **Calendar** screen.

Calls

The recently dialed calls, received calls and missed calls are saved automatically.

Select **Calls** in the main menu and then press the left/right scroll key to select **All calls**, **Missed**, **Received** or **Dialed**. Then select **Options** for the following options.

- Send message: To send a message or MMS.
- Save number: To save the numbers of the selected record.
- Call: To make a voice call or a video call.

- Display mode: You can select **Normal** to display all records or select **Simple** to ignore the duplicated records.
- Delete: To delete the selected record.
- Mark/Unmark: To mark/unmark a record or all records.
- Calls status: To display the information on voice calls, video calls and data services. In the voice call, video call and data page, you can select **Reset** to clear all records.

4 Text Input

You can use the keypad to enter alphanumeric characters and symbols. For example, you can add entries to the contacts, write messages or schedule events on the calendar.

Note   While entering text:

- Press [*] to switch between input methods. Press and hold the [*] key to enable or disable the T9 input mode.
- Press [#] to display the symbols list. Press and hold the [#] key to set the input language.
- Press [←] to delete the letter before the cursor.

T9® Input Method

With the T9 input method, you can easily and quickly enter words. T9 is a predictive text entry mode. It allows you to easily and quickly enter words. Press the relevant key that corresponds to the desired letter and T9 will offer you candidate words.

Press each key carrying the desired letter once, and then the predictive text scheme will present the candidate words composed by the letters you have entered in the drop-down menu.

For example, to enter the word "good" with the T9 input method, follow these steps.

1 Press successively the keys [4], [6], [6], and [3] which "g", "o", "o", and "d" belong to, and the candidate words "good", "home" etc. composed by these letters will be shown in the drop-down menu.

2 Use the up/down scroll key to select "good". Then press [0] to enter a space for entering the next word.

Note   Press [*] repeatedly and you will see "T9 abc", "T9 Abc" and "T9 ABC" on the upper left corner of the screen successively. It indicates the words to be entered will be in lower case, first letter capitalized or in upper case.

Traditional Input Method

When T9 input method is off, you can use the traditional input method for entering alphabetic charac-

ters. Repeatedly press the key that carries the letter to be entered when it appears on the screen.

For example, to enter the word "Hello" with the traditional input method, follow these steps.

1 Press ⬚ that carries "h" repeatedly and all letters carried by this key will be displayed successively on the screen. You can scroll through this list and select the character you want. Stop when you see an "h" on the screen.

2 After entering the first letter, you can directly press another key (except ⬚) to enter the next letter. If the next desired letter is on the same key as the current one, wait until the cursor appears to the right of the current letter and then you can enter the next one.

3 Enter "e", "l", "l" and "o" in the same way.

> **Note** Press ⬚ repeatedly and you will see "abc", "Abc" or "ABC" on the upper left corner of the screen successively. It indicates the words to be entered will be in lower case, first letter capitalized or in upper case.

"123" Numeric Input Method

In a text editing screen, press and hold the character/number keys to enter corresponding numeric characters.

You can also press successively the ⬚ key to switch to the "123" numeric input method, and enter corresponding numeric characters by pressing the character/number keys.

Symbol Input Method

You can press ⬚ to display the symbols list and then select **Recent** to display recent symbols.

You can also press ⬚ to input the commonly-used symbols in a text editing screen.

Input Different Languages

In a text editing screen, Press and hold the ⬚ key to set the language for the text. The selected language will be displayed on the upper right part of the editing screen.

5Contacts

Contacts enables you to save and manage such information as phone numbers and addresses of your contacts. You can save such information in your phone or your SIM card. You can also assign frequently-used numbers to speed dialing keys for your convenience.

Making Calls from the Contacts

You can make a voice/video call with a contact selected from the contacts list.

1 In the **Contacts** screen, press the left/right scroll key to select **Contacts**.

2 Select a contact and select **Options** > **Call**. Then, you can select **Voice Call** or **Video Call** to make a call. Alternatively, you can select **Edit before call** to edit the number before making the call.

Searching for a Contact

You can find a contact from the contacts list easily and quickly by using this function on the **Contacts**
screen. Select **Options** > **Search**, and then enter the contact name you are searching for. The contact is displayed.

You can also use quick search in the contacts list screen. You can find a contact by entering the initials of the first name or the last name of the contact. For example, to find a contact named "Alice Green", enter the initials "a" or "g". This contact is displayed in the candidate list.

Viewing Contacts in Phone/SIM

In the Contacts screen, select **Options** > **View contacts in phone**/**View contacts in SIM**. You can display the contacts list saved in the phone or that in the SIM card. You can also select **Options** > **Settings** to set the default contact list displayed in the contact screen.

Other Operations

In the **Contacts** screen, select **Options** for the following options.

■ **Groups**

- Details: To view the detailed information of the contact.
- Call: To make a voice call or a video call.
- Create message: To send a message or Email to the selected contact.
- Add new contact: To create a new contact.
- Management: To back up your contacts from your phone to a memory card or from your memory card to your phone.
- Search: To find a contact from the contacts list.
- Send contact: To send a contact to other devices supporting Message or Bluetooth.
- Copy to SIM/Copy to phone:To Copy one or more contacts from your phone to the SIM card or from your SIM card to the phone.
- Delete: To delete the selected contact.
- Mark/Unmark: To mark/unmark a record or all records in your phone and SIM card.
- View contacts in Phone/SIM: To display the contacts list saved in the phone or that in the SIM card.
- Speed Dial Number: To assign often-used numbers to speed dialing keys "2" to "9".

- My business card: To save your own information to a Business Card.
- Settings: To set the default contact list displayed in the contact screen, to sort the contacts on the **Contacts** screen or to set the save location.
- Memory status: To view the memory status of both your phone and SIM card.

Groups

You can rename a group, add group members, or delete a group.

Adding/Deleting Group Members

You can add a member to a group in your phone or delete a member from it.

1 In the **Contacts** screen, press the left/right scroll key to select **Groups**.

2 Select a group and press ● to view the details.

3 Select **Options** > **Add new Users**. Select a contact and press **Add**. The member you added is displayed in the group member list.

To delete a group member, select a member from the group member list, and then select **Options** > **Delete**.

Managing a Group

1 In the **Contacts** screen, press the left/right scroll key to select **Groups**.

2 Select a group and select **Options** for the following options.
* Details: to view the details of a group.
* Rename: to change the name of a group.
* Send Message: to send a text message, MMS or Email to all members of a group.
* Remove all members: to delete all members of the group.
