Dear Sir, Madam

Subject: Type Authorization compliance Statement- QKGRDX-V1

Further to our application for FCC type authorization, TLParker Limited of 36 Sheffield Crescent, Burnside, Christchurch, New Zealand (Grantee code:QKG) hereby confirm that the radio module: QKGRDX-V1 is electrically identical to Motorola transceiver: FCC ID: AZ489FT3790.

TLParker Limited has performed a Class 1 Permissive change modification to the above Motorola FCC Type authorized unit. This entailed removal of the electronic circuitry from within its original plastic housing and refitting within a metal housing. As a result, of the removal of the plastic housing assembly, there are no longer any user controls and all channel selection and PTT functions are accessed via the radios external interface connector.

The result of the modification causes no degradation to the units original Type authorized specifications. A representative sample was submitted to FCC listed Test Firm, EMC Technologies Ltd of Auckland, New Zealand (Registration Number: 90838), for compliance test conformation. The Test firm has verified that the unit continues to be totally representative sample.

Yours faithfully

Garry Parker
Company Director
