

October 26, 2011

To Whom It May Concern:

We, the ESCORT Inc, hereby request Limited Modular Approval as provided in Section 15.212 of the FCC Rules. The requirements of this section have been fulfilled as follows:

15.212(a)(1)(i); Requirement of RF Shielding is not met. The module meets the radiated emissions limits of section 15.209 and 15.249 of the FCC Rules without shielding.

15.212(a)(1)(ii); Requirement of Buffered Input: The module does not provide a direct data input to the modulator.

15.212(a)(1)(iii); Requirement of Power Supply Regulation: The module incorporates its own regulator, which is denoted as U2 in the documentation.

15.212(a)(1)(iv); Antenna Requirement: The module incorporates a permanently attached chip antenna.

15.212(a)(1)(v); Stand-Alone Test Configuration: The module was tested in a standalone test configuration as described in the test report.

15.212(a)(1)(vi); Labeling Requirement: The module will be labeled with its own FCC identification number, and the product into which the module is installed will contain a label referring to the enclosed module. A picture of the external label is included with the documentation.

15.212(a)(1)(vii); Operating Requirements: The module meets the specific rules for this type of transceiver. Furthermore ESCORT Inc intends to use the module only in it's own products.

15.212(a)(1)(viii); RF Exposure: The module complies with RF exposure requirements as demonstrated in the test report.

The module will be installed only in our end products and will not be marketed to 3rd parties or the general public.

Respectfully,

John Kuhn  
VP, Engineering  
ESCORT Inc
