

## Connect your detector to your smartphone via Bluetooth®

**A** Power on the RedLine 360c. Make sure the unit is connected to your car's 12V port.

**B** Install and run the ESCORT Live app on your smartphone.

**Note:** The first time you run the app, you will be prompted to register a new account.

**C** In the ESCORT Live app, press the Menu button then select "Devices".

**D** Select "RedLine 360c" from the list.

**E** In the ESCORT Live app, the RedLine 360c entry will display "Connected" when it has paired. Press the "Menu" button then "Home" to return to the Map screen.

**F** You're all set!

## Connect your detector to Wi-Fi

**A** Connect RedLine 360c to your smartphone via Bluetooth using the directions on the previous page.

**B** Connect your smartphone to your car's Wi-Fi (or make sure it is connected), through the phone's SETTINGS.

**C** In the ESCORT Live app, go to Wi-Fi Settings > Connect to Wi-Fi > enter your car's hotspot password and press JOIN.

**D** After successfully connecting to Wi-Fi, the speed limit display on RedLine 360c will change to a white background.

**E** Your phone will share the car's hotspot SSID and password with RedLine 360c so that RedLine 360c can connect directly to the hotspot.

# ESCORT® REDLINE 360c

Premium Radar and Laser Detector

## QUICK START GUIDE

# THANK YOU!

## For purchasing the new ESCORT® RedLine 360c

### UPDATES KEEP YOUR DETECTOR FUTURE-PROOF

**IMPORTANT:** Because of emerging radar technologies in newer vehicles, Escort is constantly updating its products' software to keep your product performing at its best, every day.

If your detector is connected to Wi-Fi in your car or garage, you will be prompted to update your software whenever there is a new version, by simply pressing a button. If you do not have a Wi-Fi hotspot to connect your detector to, RedLine 360c can be updated using a USB A/Mini B cable and our Detector Tools Pro software available on our web site.

### Mounting to the Windshield
