### Features

- ◆ Dimond protecting jacket ring--mechanical feeling, long life up to 50 million cycles Fulen self-developed and patented technology. By adding the "diamond protecting jacket ring" between key shafts to reach mechanical feelings. No need to add oil, the super lower abrasion rate of the self-lubricated POM material ensure the long life of every keys.

Waterproof guidance holes

- ◆ Waterproof design

The enlarged waterproof guidance holes could speed up the spilled liquid flow out so that it could give good protection for the keyboard from the accidental spills

- ◆ Low Power Indicator LED

When the power is less than 1.0V, the LED will keep lighting on, please change the battery when it's lighting on
