

**GKM561R**

**System requirements**

- IBM® or 100% compatible PC
- Microsoft Windows® Operating System
- Pentium-equivalent processor or above
- One available USB port

**OS support**

- Windows 2000
- Windows ME
- Windows XP
- Windows Vista

**Specifications**

**Keyboard**

- Dimensions: 403 x 190x 26.2 mm
- Weight: 850 +/- 20g (with Battery)
- Channel: Separate 78 channels for keyboard with unique sets ID.
- Radio Frequency: 2.4GHz
- Operation distance: 10 Meters
- Key Number: 84 Keys
- Battery: 2 x AA batteries
- Battery Life: 2 Month (Base on average usage)
- Hot Keys : Mute · WWW · E-mail · Previous page · Next page · Search · Refresh.

**Touch Pad**

- Dimensions: 45.7\*35.6\*1.12 mm

**Receiver**

- Dimensions: 41\*16\*8 mm
- Weight: 10.9g
- Interface: USB 1.1

- Removal or installation of the product.
- External causes to the product, such as absence of electrical grounding, power fluctuation, failure and/or power spikes.
- Normal wear and tear.
- Any other cause not related to a product defect.

**Warning**

Do not use this product in ashy, wet or oily environments as these conditions can shorten the life of this product and may cause injury to its user(s). This is not an outdoor product. Exposing this product to the elements may cause damage to the product and/or may cause injury to its user(s). Do not use alcohol, petroleum, benzene or thinner-based solutions to clean this product. We recommend wiping this product with a damp cloth only.

**B. Setting up the Keyboard and Mouse**

- Turn ON your keyboard by sliding the switch at bottom case. (FIG. 2)
- Open the keyboard's battery compartment cover and insert the two pieces of AA Alkaline batteries. Make sure they are properly installed. (FIG. 3)
- Replace the keyboard battery compartment cover.
- Usually the keyboard has aligned in the factory, and it can be used after inserting batteries. If the keyboard and touch pad cannot be recognized from system, please follow steps below.
- Press the ID button of receiver and the LED (RED) light will start to blink.
- Close to the receiver and press the ID button of keyboard, and the LED (RED) light will stop blinking.
- If the keyboard cannot be connected after setting, please repeat the step 5~7 to reset the ID button.

**Introduction**

Thank you for purchasing our RF2.4GHz wireless keyboard with touch pad function. For your own safety, please read this manual thoroughly before using this product. Place for reference when necessary.

**Contents in the package**

The following items are included in the package. Please make sure all items are accounted for as you open the package. If there was any item missing or damaged, please contact the reseller where the product was purchased or our support center.

- 2.4GHz Wireless Keyboard x 1
- USB 2.4GHz receiver x 1
- User Manual x 1
- AA Alkaline batteries x 2

**Warranty Information**

This product is backed by a One-Year Manufacturer's Warranty, starting from the date of purchase. The warranty covers for free repair in accordance with the contents stated herein but does not cover wear and tear and any malfunction or damages as results of improper usage as stated in this manual. *This warranty DOES NOT COVER:*

- Any product with defaced, modified or removed serial numbers.
- Damage, deterioration or malfunction resulting from:
  - Accidents, misuse, negligence, and natural hazards including: fire, water, lightning and/or other acts of nature.
  - Any unauthorized modifications not complying with the standard product, or failure to follow instructions supplied with the product.
  - Repair or attempted repair by unauthorized personnel.
  - Shipping damage; consult with your retailer if the product is suspected of being damaged during shipping.

**Installation Procedure**

Before installing this product please make sure you have one available USB port reserved for the receiver.

**A. Setting up the Dongle Receiver**

- Plug the receiver into an available USB port. (FIG. 1)
- Wait for Windows to install drivers for the receiver and keyboard.
- When the receiver has been properly initialized, its LED light will stay light.

**Battery Low**

If you feel the touch pad does not move smoothly or keyboard does not work when typing, then the batteries have lost their charge, so please replace them. Also, the LED light will be blinking "Red" when there is a battery-low situation.

- Low-Battery is indicated by the illumination of the Keyboard Top case "Batt. Low". Please replace the battery when the LED lights up.
- We recommend using alkaline batteries for the keyboard.
- You may need to reset the ID's after replacing new batteries for the keyboard.

**Warning**

Please be careful when resetting the Link for the keyboard. Objects with sharp point may break and leave behind shards.

Do not mix old and new batteries, or mix different types of batteries. This can cause rupture or leakage, resulting in personal injury or property damage.

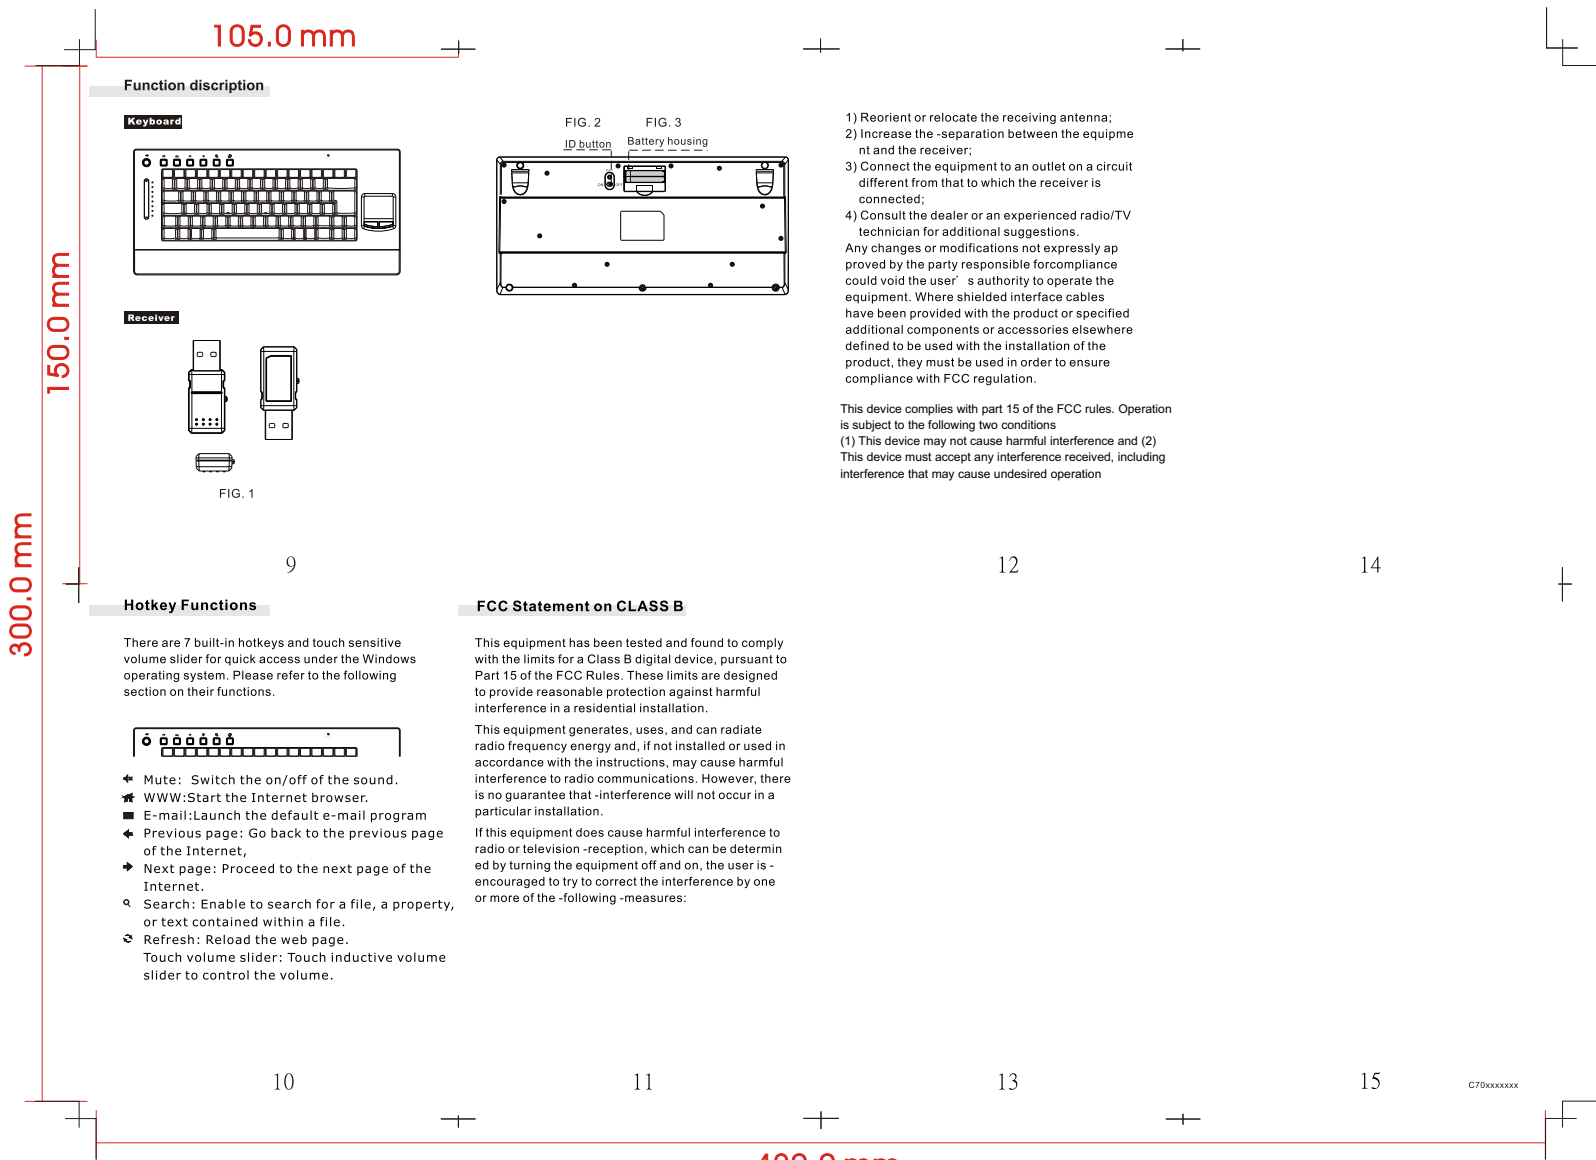

**This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.**  
 This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:  
 (1) This device may not cause harmful interference and  
 (2) This device must accept any interference received, including interference that may cause undesired operation
