RE: Additional Information Regarding Tecore Networks': **QJMRU-060785**

To whom it may Concern:

Tecore, Inc. D/B/A Tecore Networks hereby attests to the following with respect to the above sited equipment:

1. This device is not user-installable. Installers of this device and any associated supporting equipment must possess a minimum level of specific technical knowledge (to a level satisfactory to Tecore Networks). Alternatively, such installers must have successfully completed professional training courses conducted by Tecore Networks, or a Tecore Networks-approved certified training partner. This device and any associated supporting equipment are not to be installed (or stored) in any area that is accessible by the public.
2. The technical specifications for the antenna systems to be utilized with the **QJMRU-060785** are approved by Tecore Networks as part of the requirement for the sale, installation and final acceptance of the device and any supporting equipment. The maximum specified antenna gain value for the **QJMRU-060785** product is 15 dBi for the 617 – 894 MHz frequency range.

If I may provide any additional information, please contact me via phone or email 410.872.6282 or [cbernal@tecore.com](mailto:cbernal@tecore.com).

Sincerely,

A handwritten signature in blue ink, appearing to read "Carli Rae Bernal".
