Columbia, MD 21046

**SUBJECT: iCore NIB  
FCC ID: QLJNIB-002  
Class II Permissive Change  
Original Grant Date: 6 June, 2022**

Gentlemen:

Transmitted herewith, on behalf of **Tecore Networks** is an application for a Class II Permissive Change Certification of the **QLJNIB-002**.

The device is identical to the previously certified **QLJNIB-002** except for the following:

1. **The Band 2 QLJNIB-002 was not modified physically or electrically to support 3<sup>rd</sup> Generation Universal Mobile Telecommunications System (UMTS) operations. The QLJNIB-002 was tested to confirm adherence to the FCC emissions requirements for 3G UMTS Band 2 operations. No further changes were performed.**
2. **The configuration change to 3G UMTS from 4G LTE operations is achieved by the addition of a 3G UMTS software application that resides within the QLJNIB-002 platform.**

Should you have any questions or comments concerning the above, please contact the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "David Claburn", written over a horizontal line.

**David L Claburn  
Senior Project Manager  
Tecore Networks**
