

Module Approval Request Letter

Subject: Module Approval request letter

Date: 10/19/2012

FCC ID: QLY-RR10

Dear Reviewer,

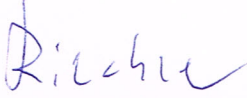

We, Delta Electronics Incorporated, would request 13.56MHz RFID Reader Module approved under module approval authorization. The requirements regulated in 15.212 have been fulfilled and clearly explained below.

1. The requirement of RF shielding: The shielding of the radio portion can be demonstrated in exhibition External Photo.
2. The requirement of buffered inputs: Buffered data inputs stage has been integrated in chip (RR10).
3. The requirement of power supply regulation: The part number of the power regulator is (1117-3.3V).
4. The requirements of section 15.203 and 15.204(C): The RF Module is equipped with an onboard PCB Loop antenna; please refer to photo exhibit.
5. The requirement of stand-alone test configuration: Please reference exhibition Test Configuration Photo for the stand-alone test configuration.
6. The requirement of labeling: The instruction on the labeling rule of the end product has been stated in the users manual of this module. Please also see the exhibition Label Sample.
7. The requirement of compliance on specific rule or operating requirements: The required FCC rule has been fulfilled and all the instructions for maintaining compliance has been clearly stated in the Users Manual.
8. The requirement of RF exposure: Not applicable since the unit operates under section 15.225 of the FCC rules. The reference guide contains general installation and operation instructions. MPE evaluation not required.(RFID devices subject to §15.225 are generally excluded from the RF Exposure requirements due to its very low radiating power.)

Please do not hesitate to contact me for any questions of this request letter. Thank you.
