

Request for Modular Transmitter Module Approval

Module Characteristics declaration:

Item No.	Yes /No	Requirements	Declaration of the final design
1	Yes	Have its own RF shielding	
2	Yes	Have buffered modulation/data inputs (if such inputs are provided)	
3	Yes	Have it own power supply regulation	
4	Yes	Meet the antenna requirements of Section 15.203	
5	Yes	Be tested in a stand-alone configuration, i.e., the antenna, AC or DC power and data input/output lines must be connected to the module but, the module must not be inside another case during testing	
6	Yes	Be labeled with its own FCC ID number, and if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	
7	Yes	The limited modular transmitter must comply with all specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	
8	Yes	Address compliance with the Commission's RF exposure limits in Sections 1.1310 and 2.1093. In addition, spread spectrum transmitters operating under Section 15.247 are required to address RF exposure compliance in accordance with Section 15.247(b)(4).	T
