## Wi-Fi Doorbell

CL-3239

# Quick Guide

#### Unpacking

Once you have unpacked your product, make sure that all the parts shown below are available. If any pieces are missing or broken, please get in touch with your dealer.

#### Introduction

The Wi-Fi doorbell is a smart video doorbell that allows you to answer your door with smartphones and tablets anytime anywhere.

#### Layout

#### Screwdriver

You can replace the screwdriver's heads as per your needs.

#### **Diagram For Connection**

Remove your existing doorbell from the wall and disconnect the wires, then connect this doorbell to your existing wires.

It doesn't matter which wire connects to which screw.

#### **Diagram For Installation**

After the connection, install the cover plate to the doorbell.

#### Wall-mount Case Installation

1. Choose a proper location for the doorbell. Be sure to consider the average height of visitors.

2. line up the wall-mount case using the provided mounting level, install the wall-mount case and screws with the holes in the wall.

- 3. Install the doorbell into the wall-mount case.
- 4. Insert and tighten a screw to finish the installation.

- 1. Download the iCreBell APP store.
- 2. Install iCreBell APP on your smartphones.

from app

3. Lauch the APP.

Follow the instructions and start the registration. Note:Password must be at least 8 charaters and contains numbers, uppercase letters and lowercase letters.

#### FCC and IC Regulations

#### FCC Information For Users

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different

from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.

FCC ID: QMH-CL3239

#### IC Statement and Warning

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) This device may not cause interference, and(2) This device must accept any interference, including interference that may cause undesired operation of the device.

IC ID:4002A-CL3239

## Safety way to remove the battery or the battery from the equipment:

Remove the old battery or battery pack, follow the steps in reverse order than the assembly. To prevent contamination of the environment and bring on possible threat to human and animal health, the old battery or the battery put it in the appropriate container at designated collection points. Do not dispose of batteries or battery together with other waste. It is recommended that you use local, free reimbursement systems batteries and accumulators. The battery shall not be exposed to excessive heat such as sunshine, fire or the like. Do not remove battery incorporated with product for your safety. If you need to replace the battery, take it to the nearest authorized EcoBoulder+ service point or dealer for assistance

Correct Disposal of this product. This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling. WEEE directive
