Stopwatch - selecting **STOPWATCH** will let you use the handset as a stopwatch so you can time an event. Press the left soft key to **START** the stopwatch. When the stopwatch is counting up, press the left soft key to **PAUSE** the stopwatch, or the right soft key to **STOP** the stopwatch. Afterwards, you can press the left soft key to **RESET** the stopwatch for use again, or press the right soft key to **CANCEL** and return to the **EXTRAS** menu.

D-Life

You can manage your phone from the d-life.com website. Go to www.d-life.com, enter your e-mail and password and click **Sign In**.

After logging in, you will be directed to the **My Devices** page. Here, click on your phone to go to its device page.

Call Log

The first device page that opens will be Call Log, which shows you a log of all your D-Life Out calls. Here, you can view the date and time of each call, the type of call, the related phone numbers, the duration of the call, and the cost of the call.

You can also sort the list by **Date/Time**, the **From** number, the **To** number, the call **Duration**, or the call **Amount** by clicking on the text at the top of each column.

You can also filter your list by selecting **All Calls**, **Call Forwarding**, or **Call Out** from the dropdown box at the top of the list, as well as by date by selecting a month or **All available records** from the other dropdown box, then clicking **View**.

Note: Call logs are stored on D-Life's servers for 6 months before they are automatically deleted.

The screenshot shows the D-Life user interface. At the top right, it says 'Welcome, David' with a language dropdown set to 'English'. Below that are links for 'My Devices', 'My Profile', 'My Orders', 'Store', 'Support', and 'Sign out'. The main content area is titled 'My Devices' and shows a balance of 'US \$10.00'. On the left, there are three device entries: 'David's phone 61111234', 'Tom's phone 61111247', and 'Vivian's phone 61111269'. The 'Call Log' tab is selected, showing a dropdown menu with 'All Calls' selected and 'All available records' as an option. A 'View' button is next to it. Below the dropdown is a table with the following data:

Date/Time	Type	From	To	Duration	Amount (USD)
2007/1/012 11:57:55	Call Out		+886263757870	00:25	\$ 0.02
2007/1/011 16:23:24	Forwarding	80002356	+886255776677	00:25	\$ 0.02

Phonebook (D-Life)

You can manage your handset's D-Life phonebook by clicking on the **Phonebook** tab.

Here, you can see your list of numbers in your D-Life phonebook. You can go through your list of numbers by clicking on **First**, **Previous**, **Next**, or **Last**. You can sort the list by **Name** by clicking on the word **Name** at the top of the column.

To add numbers, click on **Add Number** to open the following screen.

Here, enter a name and number for your contact, then click **Save**. If you are entering an 8-digit D-Life number for your contact, simply enter the 8-digit number. If you are entering a regular phone number, enter the complete phone number with country code and area code. For example, to call +1-(234) 456-7890, enter +1234567890 as the phone number.

Note: All numbers in your D-Life phonebook will be dialed through D-Life service. If you enter a normal phone number, it will be dialed through D-Life Out and will use your D-Life credits.

Note: The D-Life phonebook has a 100 number maximum.

The screenshot shows the D-Life website interface. At the top, there is a navigation bar with "D-Life Your Digital Lifestyle" logo, a user greeting "Welcome, David", and a language dropdown set to "English". Below this is a secondary navigation bar with links for "My Devices", "My Profile", "My Orders", "Store", "Support", and "Sign out". The main content area is titled "My Devices" and shows a balance of "US \$10.00". On the left, there is a sidebar with "Add Device" and a list of devices: "David's phone 61111234", "Tom's phone 61111247", and "Vivian's phone 61111269". The main area has tabs for "Call Log", "Phonebook", "Call Forwarding", and "Info". The "Phonebook" tab is active, displaying a message: "You may enter either a regular phone number or a D-Life No. for your contact. You can have a maximum of 100 contacts in your Phonebook." Below this is a form for "Phone number format" with examples: "E.g. +886212341234 (Regular phone number)" and "E.g. 88001234 (D-Life No.)". There is a search box. A table lists contacts with columns for "Add Number", "Delete", "Name", and "Number". The table contains four entries: Andy (+88614445888), Brian (80007722), Lucie (+88684453336), and Mark (+88669367665). Each entry has an "Edit" link. Navigation links "First", "Previous", "1 to 1 of 4", "Next", and "Last" are at the bottom of the table.

D-Life Widget (cont.)

On the D-Life Widget's main screen, you will see a list of your D-Life devices and their current status. Double-click your phone to go directly to its d-life.com device page. You can access other D-Life devices by double-clicking their icons. You can add a new D-Life device by clicking the **Add Device** button.

Appendix A: Managing your handsets

Registering your handset - If you want to add your handset to another base station, or if you purchase an additional handset for your current base station, you will need to register your handset with the base station you wish to use. If you have additional base stations in your home, unplug them while registering your handset to your main base station.

To register your handset with a base station, hold down the page button on your base station for 5 seconds, after which the PSTN and VoIP LEDs will flash alternately. Press the left soft key to open the **MENU**, select **BASE SETUP**, then select **REGISTER**. Pick a base number to assign the new base station to, then enter the PIN number of the base station you wish to use (the default is 0000). The handset will then register itself to the base. The handset's number will appear at the top right of your display under the battery life icon.

Selecting a base - If you have multiple base stations registered to the same handset, you can change which base to use with the handset by selecting **SELECT BASE**, then selecting which base you want to use.
