RE: FCC ID: QMNRH-90_ATCB003223
Attention: Mary Washington

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the application indicates HAC as part of the certification. Please note that the manual does not contain the M rating of the HAC. Please provide a manual which provides the user with the appropriate M rating and HAC information as required by the FCC.
2. Please note that the manual mentions a "Data cable" and a "connection port" on the phone. This indicates that the device may be a computer peripheral device (i.e. can be connected to a PC to transfer data to and from the phone). However, the label information does not indicate that this portion is DoC'd (e.g. no FCC DoC label logo). Please note that as this would appear to be a part 15B computer device it will require either a DoC or certification for this portion of the phone. Please explain and please provide the necessary information to either certify to 15B or evidence that the DoC route is taken (i.e. FCC DoC logo on the label).
3. Please provide some information on the resolution bandwidth and video bandwidth settings for the plots in section 7 on pages 26 and 27 of the Part 24 test report.
4. It is not clear from the report what type power measurements are on page 27. Are these average power or peak power readings? Please explain.
5. Please note that the report should give a clear statement of compliance needs to be made. Please note that while the "Objective" section gives the reason for the test report, it does not make a clear statement of compliance. I may have overlooked this, but I could not find this statement in the report. Please either provide a clear statement of compliance to the HAC requirements or please point to the page on which this statement is located.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
