RE: FCC ID: QMNRM-164

Please supercede the original label exhibit for this project (in each part) for the new exhibit entitled "FCC ID label revised" exhibit uploaded today into each part.

The reason for this request is due to the fact that the client omitted the model from the original label – it is on the new one. Although this is not required by the FCC, it is crucial all sources show the model on the label for Industry Canada approvals.

Thank you
