RE: FCC ID: QMNRM-19

Response to FCC Question:
(Correspondence Reference Number: 22235, 731 Confirmation Number: TC196676)
Dated Aug 11, 2005

Question: A more detailed explanation of the circuitry around the filter.

- The subsystem and surrounding circuitry to which the FCC questioned in FCC correspondence 22235 is for impedance matching purposes and has nothing to do with the frequency determining circuitry of the device.
