RE: FCC ID: QMNRM-41\_ATCB002723

Attention: Louis Le

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please provide a cover letter stating the purpose of the PC2.
2. FYI – The FCC training session for HAC states that the label and/or user information provided should explain how to use the device “including specific instructions about antenna positioning if applicable i.e. “the antenna should be extended for best compatibility...”. Please note that the manual does not appear to provide information about the antenna extension etc. Also please note that the web site [www.nokia.com/phones](http://www.nokia.com/phones) as mentioned in the manual does not appear to easily provide this information. Please consider providing special instructions and operating conditions that may apply to HAC devices.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
