RE: FCC ID: QMNRN-66\_ATCB004002

Attention: Ron Chernus

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the 731 states that this is a composite PC2 including a PC2 to the BT device. However, the file explaining the PC2 does not appear to affect the BT portion. Please confirm if the BT is also part of the PC2, or if only the part 22/24 portions are to have a PC. If this is also for the BT please provide the required test data. IF this is only for the part 22/24, please only include those parts to which the PC relates on the 731.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
