RE: FCC ID: QMNRM-97_ATCB002549

Attention: Louis Le/ Andreas Gillmeier

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please explain why the test results on page 7 of the test report states the device complies with part 24. It does not appear that this device is a part 24 transmitter.
2. Please note that the 731 states this is a PCE equipment code. However, please note that since this does not appear to have a part 24 transmitter the equipment code should be TNE.
3. Please note that the 731 states that the applicable rule parts are parts 2, 22 and 24. Please note that the documentation appears to show the device is only for part 22. Please explain.

A handwritten signature in black ink that reads "Dennis Ward". The signature is written in a cursive, flowing style.

Dennis Ward

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
