

APPENDIX 2

ID Label and Location

A2-1 Label Requirements

A Class B digital equipment subject to certification by the FCC shall carry a warning label which includes the following statements:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This statement should be stuck in a conspicuous location on the device. If impossible, this warning label should be placed in a prominent location in the user’s manual.

A2-2 Label Drawing :

DQ Technology, Inc.
Model No : 202ER-4
FCC ID : QMP202ER-4

This device complies with part 15 of the FCC rules.
Operation is subject to the following conditions:
(1) This devices may not cause harmful interference, and
(2) this device must accept any interference received
including interference that may cause undesired operation.
Made in Korea

A2-3 Label Location : Bottom side of EUT

A2-4 Warning Labels

Operation manuals for Class B computing devices shall contain the following statements or their equivalent :

FCC Compliance statements

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
-
- NOTE: You are cautioned that any change or modifications to the equipment not expressly approved by the party responsible for compliance could void your authority to operate such equipment.

In case that shielded cables were used on the test, operation manuals shall contain the following statements or their equivalent :

- NOTE: This unit was tested with shielded cables on the peripheral devices.
Shielded cables must be used with the unit to insure compliance.
