AS DR. WHO

2150 A.D.

FULL RADIO COMMAND

THE ADVENTURE  
REUNITES CUSHING, BAKER, AND  
THE ORIGINAL CAST OF  
THE ORIGINAL

AVAILABLE IN A COLOUR

With the success of DR. WHO AND THE DALEKS in cinema, it  
was not long before a sequel was planned.

In 1966 DR. WHO DRAWS INVASION EARTH 2150AD to the  
big screen. Baker, Butler and Butler then follow!

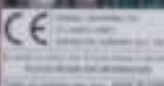

In this sequel with the DALEKS, the Doctor discovers  
that his old adversaries have changed the Earth and  
are planning to use it to take a giant step towards  
winning the war!

Peter Cushing and Barbara Török were joined this time round by Robert Cribbins as  
Swanwick, Jonathan Ben-Cassell and Jill Cairns as Lavinia along with Ray Monte,  
Andrew Fair and Philip Madoc.

Product Enterprise Ltd is proud to present the authentic, scaled  
replica from the 1966 film DALLA INVASION EARTH 2150AD  
of Dr. Who's most amazing adversary, featuring full  
Radio Control, special features from the movie  
light and sound - prepare to re-live  
the excitement of the DALEKS  
as the BIG SCIENCE!

For the first time in a long time, the Doctor has a new enemy. The Daleks, who have been defeated in the past, are now back and stronger than ever. They have built a new base on Earth and are planning to take over the world. The Doctor must stop them before it's too late.

The Daleks are a race of creatures that have evolved from a simple, primitive form into a highly advanced, intelligent race. They are the most powerful and dangerous of all the enemies that the Doctor has ever faced.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, use and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and the receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is needed
- Consult the dealer or an experienced radio/TV technician for help

**Warning:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.
