Regarding Corr. Ref. Number 24203
731 conf. number EA689475

F.C.C. c/o Richard Fabina

Mr. Fabina- Earlier this year Homewatch L.L.C. purchased specific finished goods inventory and future manufacturing rights to some devices subject to part 15 compliance from Advantor Corporation of Orlando Florida. It is a "help I have fallen and cant get up " type wireless receiver / dialer, its wireless pendant and wireless smoke detector.

NG6POM1000BASE

NG6POM1000PENDANT

NG6POMSMOKE

Please be advised Advantor Corp. will maintain unrelated listings of their own which we do not wish to disturb / retitle. They are continuing business as usual on their own remaining product lines.

Under advisement from you in an email dated 10-10-02 I have done the following...

Obtained and paid for an F.C.C. registration number it is ...0007797830

I am now stating that Homewatch L.L.C. agrees to manufacture all listed equipment with the exact design, bill of materials and specifications purchased from Advantor which were previously listed with you.

I am advising you that all Advantor test fixtures were purchased also. This should ensure continued manufactured product compliance within the F.C.C. guidelines we are subject to with this equipment.

I have filled out an F.C.C. application for the above named equipment and merely wish to retitle all equipment under the new HomeWatch L.L.C. name from the old Advantor name. 731 Confirmation number is EA689475.

Thank you, John Kennedy
