To whom it may concern,

Cover letter Class II Permissive Change (BGM111)

Silicon Laboratories Finland Oy / Bluetooth module BGM111, IC 5123A-BGM111 / FCC ID: QOQBGM111 would like to have your authorization as Class 2 Permissive Change to add a model BGM111E with antenna connector. The model BGM111E is electrically identical to BGM111A and the two models have RF characteristics. The difference between these models is that in E the internal antenna has been changed to an antenna connector, 3 supply voltage decoupling capacitors are combined to one and the layout has been adjusted to fit in the antenna connector. The difference between the models is shown in the figure below.

Sincerely,

A blue ink handwritten signature, appearing to read 'Pasi Rahikkala', written over a horizontal line.

Pasi Rahikkala
Staff HW Engineer
Silicon Labs
