

20.3.2012

Attention:
Application Examiner

Applicant: BlueGiga Technologies Inc
FCC ID: QQQWT11

To whom it may concern,

Cover letter Class II Permissive Change (WT11)

Bluegiga Technologies Inc. hereby authorizes Nemko Sweden AB, to act as agent in the preparation of this Class II Permissive change application under FCC ID: QQQWT11

The WLAN module (SDC-PE15N) by Summit, FCC ID: TWG-SDCPE15N, originally granted 15th of October 2009, has a grant note restriction co-location operations. This Class II Permissive change is submitted to allow co-located operation with a Part 15 granted Blue tooth transmitter (WT11) manufactured by BlueGiga Technologies Inc. The FCC ID of the BlueGiga transmitter (WT11) is QQQWT11.

MPE calculations have been submitted for the combined RF exposure from the two transmitters operating simultaneously in the following product:

JLT1214S Rugged Mobile Computer
Computers AB

Manufacturer: JLT Mobile

The combined MPE exposure limits are met when the final system is installed and used in accordance with the manufacturer's instructions.

Sincerely,

Pasi Rahikkala

HW Compliance Engineer
BlueGiga Technologies Inc.
