

FCC Grant Application for FCC ID: QQQWT21N

Bluegiga Technologies Oy has applied for FCC certification for their WT-21N Bluetooth® module FCC ID: QQQWT21N based on *partial testing of the QQQWT21N and full testing of its sister device the WT-21A (FCC ID: QQQWT21A).

*Tests performed:

- Transmitter conducted output power
- Transmitter conducted spurious emissions at the antenna connector
- Transmitter radiated spurious emissions

Based on the hardware differences between the WT-21N (FCC ID QQQWT21N) and the WT-21A (FCC ID: QQQWT21A) described in submitted document entitled 'HW Declaration for WT21-N', partial test report RFI/RPT1/RP74713JD08B for QQQWT21N and resubmitted full test report RFI/RPT1/RP74713JD05B for QQQWT21A, it is the considered opinion of the application examiner that the subset of testing performed on QQQWT21N taken in conjunction with the full testing performed on QQQWT21A is sufficient to demonstrate compliance with the requirements of Part 15.247 of the FCC rules for QQQWT21N.

Sincerely

Tony Henriques
Application Examiner
