RE: FCC Class 2 Permissive Change
FCC ID: QOQWT41E

Dear Application Examiner

Bluegiga Technologies Oy / Bluetooth module, FCC ID: QOQWT41E, would like to have your authorization for a Class 2 Permissive Change. The C2PC is to update the minimum separation distance and allow both portable and mobile configuration according to KDB447498. RF exposure analysis is shown in separate RF Exposure Analysis in this application and the minimum separation distance, following the rules described in KDB447498, is shown to be 21 mm.

Best regards
