

Attestation Statement

To meet the requirements of Section 15.203 of the FCC Rules the permanent attachment of the antenna is achieved by the factory-application of a permanent adhesive to the standard antenna connector. The adhesive will be applied at the factory (prior to shipment).

The following type of adhesive will be used:

METAFLUX anaerobic adhesive

Art.-Nr. 76-38

High strength, fast hardening

For temperatures up to 200°C

Soluble only under strong heat

Viscosity 700 mPa s

Shearing resistance 40 N/mm²m

Torques 47 Nm

Colour: violet
