

Modular Approval Request Letter

iWOW Connections Pte Ltd

October 6, 2008

Dear Application Examiner,

iWOW Connections Pte Ltd's TR-900 GSM/GPRS module, FCC ID: QPB-TR9000808, would like to have your authorization as modular approval specific to the GSM/GPRS etc.. The requirement of Public Notice DA00-1407 have been met and shown on the following statements.

1. "The modular transmitter must have its own RF shielding." The radio portion of this module has been shielded, please see exhibition External Photo.
2. "The modular transmitter must have buffered modulation/data inputs." The EUT has buffered data inputs; it is integrated in chip D6553BQZPH.
3. "The modular transmitter must have its own power supply regulation." The power management TWL3031 chip controls the power up, power down and power transitions of other devices associated to a specific functionality. The RF converter embedded inside chip D6553BQZPH will influence the frequency radiation and hence have to be powered by TWL3031 with a voltage of 1.8VDC.
4. "The modular transmitter must be tested in a stand-alone configuration." The EUT was placed on a Development Starter Board as a stand-alone configuration. Please refer to the figure SP of Test Result of mode in the test report.
5. "The modular transmitter must be labeled with its own FCC ID number." Please see exhibition Label Sample for the FCC ID of this module. And also in the Users Manual.
6. "The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements." The EUT is compliance with all applicable FCC rules. Detail instructions for maintaining compliance are given in the Users Manual.
