Notice_content

Question #1: User Manual does not contain information required under section 15.21 of FCC rules. Please provide revised user manual to comply this requirement.

Question #2: Based the technical description provided, the receiver is a superregenerative receiver. Based upon ANSI C 63.4 section 12.1.1.1, superregenerative receiver shall be provided with " cohere " signal during the tests. In the test report, there is no indication that such procedure was followed. Please redo the test with cohere signal.

Best Regards

Mike Kuo

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
