March 30, 2004

RE: TwinMOS Technologies

FCC ID: QS3WBGZP2

I have a few comments on this Application.

- 1.) This is an RF category "Portable" application with SAR data included. It is inappropriate for the Manual to quote a required 20cm separation distance for users.
- 2.) Because the specifications listed in the Manual indicate this product will be sold world-wide, please provide an Attestation that only product which can be tuned from Channels 1-11 will be distributed in the United States.
- 3.) FYI: The SAR data and calibration plots scanned into the report are quite out of focus and difficult to read. Kindly review the SAR report and try and improve the report resolution.

William H. Graff  
President and Director of Engineering
