1. Important-> Please note that we did not receive two emails from oetech sent to us on 26Nov2003 and resent again on 5Dec2003. They were correspondence ref# 26023. However, per my telecon with Stan Lyles on 5Dec2003 a copy of the missing email(s) was forwarded to us. Please re-check why we did not receive the original emails which have caused further delays. Our email is: [lacydog@jps.net](mailto:lacydog@jps.net)  
This correspondence is submitted to FCC/Correspondence filing in response to that received email.

2. Additionally, we would like to make these data filings confidential rather than open to internet viewing. Can we convert this filing to that at this time?

**Additional Test Report items submission (data tables and spectrum plots):** (to include with our 10Nov2003 Test Report submission)

#3 Radiated Spurs: see plot "radiated spurs"

#4 Conducted Spurs: see plot "conducted spurs"

#5 Intermod testing: see plot "intermod test"

#6 Occupied bandwidth: see plot "occupied bandwidth"

Respectfully submitted,
