## 05 Product Functions

①Intelligent visual design: Mobile phones and ipads can be connected to the device wirelessly through APP to view pore cleaning images in real time and conduct visual cleaning management;

2WiFi automatic connection: Turn on the app device wireless signal and connect the mobile phone automatically after power on (Apple device needs to be connected manually for the

3Hall switch: Open the cap and turn on the phone, automatically connect it, with faster response, easier operation and more convenient use;

4 Magnetic charge: Put it on the charging port immediately to charge, which can avoid the damage of the charging port and prolong the service life of product

⑤IP65 dustproof and waterproof: Avoid dust entering, there is no need to worry about product damage due to accidental splashing in life, without deliberate protection, easy to take, free storage.

interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help. FCC Radiation Exposure Statement This equipment complies with FCC radiation exposure limits set forth for an uncontrolled

environment. This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured not to aveced the ginetic livit for exponence to red in exceed the emission limits for exposure to radio frequency (RF) energy. The exposure to radio for wireless device employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/Kg. For bedware generative this device here been

The SAR limit set by the FCC is 1.6W/Kg. For body worn operation, this device has been tested and meets the FCC RF exposure guidelines for use with an accessory that contains no metal and be positioned a minimum of 0cm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. If you do not use a body-worn accessory and are not holding the device

worn accessory and are not holding the device at the ear, position the handset a minimum of 0 cm from your body when the device is switched

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful

interference,and (2) This device must accept any interference received, including interference that may cause undesired operation. 2. any Changes or modifications not expressly

approved by the party responsible for compliancecould void the user's authority to operate the equipment. NOTE: This equipment has been tested and

found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and

used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference

will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the
