INSERTING/REMOVING YOUR iPad®

To insert your iPad mini into the Folio, start with the Folio's keyboard facing you. Then, with your iPad in landscape mode and the volume control buttons facing out (the Home button is on your right) set the bottom half of your iPad in the Folio, making sure it is settled (you may need to apply light pressure to your iPad to ensure it is settled at the bottom of the cover).

Next, snap the top half into the Folio. Check all corners to make sure they have seated properly as well.

When your iPad is secure in the Folio, you can close it, and cleverly placed magnets will activate your iPad's sleep/wake feature to help preserve battery life. Simply open your Folio to wake your iPad.

To easily remove your iPad, simply grasp the top of the Folio's cover in the middle and apply a light pressure to the back of your iPad. Grasp your iPad's exposed side and lift/pull away from the Folio.

TROUBLESHOOTING

If your iPad® does not respond to your Folio there may be a simple explanation such as a dead battery or an unsuccessful pairing. Please use the following to help troubleshoot your situation. If none of the following solve your issue, then please contact ZAGG customer service and one of our trained professionals will be happy to assist you.

1. Restart your iPad by holding down the home and power button simultaneously until it restarts. Let go of the buttons when you see the Apple logo.
2. Turn your Folio off and back on. You should see the LED status light illuminate briefly, if not, charge your Folio.
3. After charging, turn your Folio on. If the LED status light does not illuminate, and your keyboard doesn't operate correctly, please contact ZAGG's customer support.
4. Forget and re-pair your Folio. On your iPad, select: Settings > General > Bluetooth > On. If you see "ZAGGkeys Folio" listed as an available device, touch the arrow to the right of it and choose to have your iPad forget the device.
5. Push the PAIR button on your Folio and watch for the LED status light to flash blue.
6. Your iPad should display "ZAGGkeys Folio" as an available device. Select it.
7. If your iPad gives you an error message, repeat the pairing process.
8. If you still can't get your Folio to pair, it is possible your iPad needs to have its software updated.

To update your iPad's software, follow these steps:

1. Plug your iPad into your computer, and open iTunes®.
2. In iTunes, select your iPad.
3. Choose to check for software updates.
4. If an update is available, please install it. This will take a few minutes to download from Apple®.
5. After your update is complete, repeat the troubleshooting process*.

* If you continually receive the same error message during pairing, or the above steps don't work, please contact ZAGG's customer support for assistance.

THE FUNCTION (fn) KEY

The *fn* key operates all key functions listed below. To activate these functions, hold the *fn* key down and press the desired key. For keys with two function symbols, the *fn* key operates the bottom symbol. Holding SHIFT and the *fn* key simultaneously operates the upper symbol.

caps FN + CAPS – Activates the CAPS Lock feature. When CAPS Lock is on a blue indicator light will remain lit until it is turned off. To turn CAPS Lock off, simply hold the *fn* key and press CAPS again.

FN + World Symbol – Toggles between international keyboards (when activated in your iPad®'s settings)

FN + Battery Symbol – Indicates remaining battery life

FN + Backlight On – Activates your Folio's backlight feature. Pressing this key once will turn on the backlights at their dimmest setting, pressing it twice will brighten the lights, and pressing it three times will brighten them to their brightest setting.

NOTE: The backlights will automatically turn off after a couple seconds if not being used. Simply begin typing again to activate them.

FN + Backlight Off – Dims the backlights according to their selected brightness until they turn off. For example, if your lights are at their brightest setting, you would press this button once to dim the lights, twice to set them at their dimmest setting, and three times to turn the backlights off.

FN + Backlight Color Palette – Press to select your preferred backlight color. Press repeatedly to cycle through available colors.

NOTE: The backlight feature must be turned on in order for the palette to work.

POWERING ON AND OFF

To turn your Folio on, switch the POWER button to the ON position. A red LED light will illuminate briefly while the keyboard powers up. To turn your Folio off, simply switch the POWER button to the OFF position.

PAIRING YOUR ZAGGkeys™ FOLIO

Pairing your Folio with your iPad® is easy. It should only need to be paired once, using the following directions. If the connection between your iPad and Folio is ever lost, simply repeat these steps.

1. On your iPad select: SETTINGS > GENERAL > BLUETOOTH > ON.
2. Press the PAIR button on your Folio keyboard. A blue LED light will flash until your Folio and iPad are paired.
3. Your iPad will display “ZAGGkeys Folio” as an available device. Select this option to complete pairing.

CHARGING

Your Folio features a powerful lithium-polymer battery that lasts for up to three months of normal use* between charges. It comes with a charging cable you can use to charge your keyboard quickly and conveniently. To charge your Folio, simply follow these steps:

1. Plug the micro USB connector into the charging port.
2. Plug the regular USB connector into any USB outlet (including a ZAGGsparq™, your computer, your iPad®, etc.).
3. A blue LED light near the charging port will illuminate to indicate the Folio is charging. Wait until this light turns off, indicating a full charge. It usually takes 2-4 hours to completely charge your Folio.
4. Remove the Micro USB connector and enjoy your Folio for up to three months before you need to charge it again.

* Normal use is approximately 2-3 hours of use per day without the backlit feature. Using the backlit feature will impact battery life and may require more frequent charging.

BATTERY LIFE

As mentioned, the Folio features a powerful, rechargeable battery that lasts up to three months between charges*. To check your Folio's remaining battery power, simply hold down the function (fn) key and press the battery key (also the alt key). The LED indicator will flash one of three ways.

1. Three green flashes indicate 50% or more battery life remaining.
2. Three yellow flashes indicate between 25%-50% battery life remaining.
3. Three red flashes indicate less than 25% battery life remaining. When your Folio reaches critical battery level, the red light will flash once every five minutes.

To help preserve battery life, your Folio will enter sleep mode if left on and not used for several minutes. To wake your Folio, simply press any key. The Folio's battery has no memory and therefore may be charged whenever you wish. For optimal battery life, we recommend turning your Folio off when idel for a prolonged time.

SPECIAL FUNCTION KEYS

Your Folio keyboard has been designed with the following special function keys to give you more control of your iPad®:

- Home** - Displays your iPad's home screen
-  **Lock** - Activates and deactivates your iPad's sleep mode
-  **Mic** - Activates Siri from your keyboard
-  **Keyboard Hide/Show** - Hides or shows your iPad's on-screen keyboard
-  **Copy** - Copies selected text to your clipboard
-  **Paste** - Pastes clipboard content in your selected field
-  **Previous Track** - Skips to the previous track on your current playlist
-  **Play/Pause** - Starts or stops your current playlist
-  **Next Track** - Skips to the next track on your current playlist
-  **Mute** - Mutes your iPad's audio
-  **Volume Down** - Decreases your iPad's volume
-  **Volume Up** - Increases your iPad's volume

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Declaration of Conformity

Hereby, ZAGG Inc. declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

IC Statement

- English: "

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device."

- French:"

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

The logo for ZAGG, featuring the brand name in a bold, black, sans-serif font. A registered trademark symbol (®) is positioned at the top right of the letter 'G'.
