CHANGES IN DESIGN – PERMISSIVE CHANGE CLASS 2

Pursuant to Sections 2.1043 of the Commission's Rules, the Applicant hereby requests approval for changes in design planned for product FCC ID: QTKRM-497.

By this change the resistor (R2151) is replaced by the coil (L2151) to support hearing aid inductive coupling. The change applies to Nokia Model "7020a-2b"

- Related test reports showing hearing aid compliance of the phone regarding radio frequency interference and inductive coupling are provided with this filing.

Based on FCC part 20.19 Nokia requests the Model with the Model name "7020a-2b" to be FCC listed hearing Aid compatible. The Nokia product Model "7020a-2" already granted under same FCC-ID is not implementing the related change.
