RE: FCC ID: QTKRM-78_ATCB002841
Attention: Ernest Mayer

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please provide the probe and dipole calibration factors for the SAR report.
2. Please note that the application indicates that this is also for a part 15B computer peripheral device. Please note that while part 15B data for the receiver has been provided, no part 15B test data showing the device in a computer peripheral configuration where it is passing data between the PC and the phone appears to have been provided. Please explain and/or please provide test data in the computer peripheral configuration. Please note also that as a computer peripheral device AC line conducted must be performed with the ac adapter connected to the unit.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
