6731 Whittier Ave, McLean, VA 22101

January 21, 2009

RE: FCC ID: QTLRH-121_ATCB007205
Attention:

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that SAR reports are required to include the dipole and probe calibration certificates and data. Please note that the dipole cal and probe cal certs and data do not appear to be included in the SAR reports and annex C and D as mentioned in the SAR report does not exist. Please provide the appropriate dipole and probe calibration data.
2. In relation to item 1 above, please verify that the dipole target values are correctly used and referenced in the table.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Except as described in §0.459, correspondence and responses should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
