RE: FCC ID: QTLRH-87\_ATCB003708

Attention: Hailun Shi

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the application appears to also be for 47CFR part 15B. Please note that the Part 15B certification is for the computer peripheral device part of the phone. The 15B report appears to be only the receiver test. Please also note that nothing in the manual indicates that this device connects directly to a computer. If the device does not connect directly to a computer then it is not a computer peripheral device and cannot be certified under 15B. Please verify and show how this device is a computer peripheral.
2. If the device is a peripheral, please provide a part 15B report showing the device connected to a computer in a configuration as shown in ANSI C63.4 and tested in a configuration where it is transferring data between the PC and phone.
3. If this is a computer peripheral device, please provide test setup photos of the device tested in accordance with ANSI C63.4 as a computer peripheral device.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
