RE: Airespace Inc.

FCC ID: QTZ1300

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Page 2 of the users manual mentions tunable amplifiers per country. Both physical and software controls can not be provided that allow the system to operate outside of compliance of the rules. Please explain compliance to 15.15 given the "tunable amplifiers" mentioned in the manual.
- 2) Note that the users manual still are a few references to internal antennas.
