Gentlemen,

The purpose of this letter is to provide justification for classifying the above products as Class A. All of the devices are a IEEE802.11 A/BG or 802.11 B/G access points.

The Airespace Access Point must be controlled and monitored by an Airespace Ethernet switch product. The Airespace AP1200 series of products (and its associated 24 port Ethernet switch) is intended only for industrial / corporate environments. Marketing of the products will not be targeted at individuals for residential use. The Airespace products are intended for use in corporate and industrial environments. The AP1200 will not be available for purchase at consumer oriented retail outlets.

If any further information is required, please do not hesitate to contact me at the email address below.
