

Wireless Resident Monitoring Solutions

26.06.2011

DECLARATION

I Hereby declare that the, the changes between previous (PCB1.2) and last (PCB1.3) versions of UTX-830 are:

1. New, more effective low pass RF filter between transceiver and antenna.
2. Improved, pin compatible RF transceiver CC1101 instead previous CC1100.
3. Improved, pin compatible CPU PIC18F25K20 instead previous PIC18L2321.
4. Miniature DIP switch for choice up 8 RF protocols.
