

Operation Manual

Model : DA-200

Precaution

1. Do not remove the cover.

To reduce the risk of electric shock and keep the quality of product, please do not remove the cover.

Please follow up by the instruction of the wiring Diagram of the Installation Guide.

2. Keep small articles out of the reach of children.

Store small articles (screws etc.) in places not accessible to children.

If swallowed, consult physician immediately.

3. Stop using immediately if a problem appears.

When problems appear, stop using the system immediately and contact the dealer from whom you purchased the equipment.

Some problems which may warrant immediate attention include a lack of sound, noxious smoke being emitted from the unit, or foreign objects dropped inside the unit.

4. Do not operate the equipment while driving.

Do not change setting while driving. If operation requiring a prolonged view of the display is required, stop the vehicle in a safe

5. Do not insert 3.5 Inch Disc

3.5 Inch Disc will may not be used.

6. Do not use this equipment outside vehicle.

Do not use this equipment for purposes other than those listed for a vehicle Failure to do so may result in an electric shock or an injury.

7. Keep foreign objects out of the Monitor compartment.

Keep foreign objects out of the monitor compartment. Also, avoid placing your hands in the area where it might interfere with the monitor's operation.

8. Stop the vehicle before carrying out any operation that could interfere with your driving.

If the operation of the unit (such as opening or closing of the monitor, etc.) interferes with your driving, stop the vehicle in a safe location before attempting operation.

9. Temperature

Be sure the temperature inside the vehicle is between +60°C (+140°F) and -10°C (+14°F) before turning your unit on.

10. Maintenance

If you have problems, do not attempt to repair the unit yourself. Return it to your purchasing dealer.

Check point before operating.

1. Turning On or Off

1. Pushing the **OPEN** switch forward will release the TFT-LCD monitor and it will drop down slightly.
Pull the monitor downward until a comfortable viewing angle is reached.
The internal friction will hold the screen in position while the system is in use.
2. Pressing the **POWER** button on the unit or the remote control will turn the system **ON** or **OFF** alternately.
When in use, the internal backlighting will illuminate the controls.
3. After the unit has been turned on and is displayed in a picture, adjust the viewing angle by pivoting the screen to optimize the picture quality.
4. Remember to turn the unit off and pivot the LCD to the locked position when not in use.

2. Dome Lights Operation

1. The lights are controlled by a three position slide switch.
2. Sliding the switch to the **ON** position will turn the lights on.
3. The **OFF** position will prevent the lights from turning on at all times,
4. The **AUTO** position will allow the lights to turn on and off with the vehicle's interior lighting.

Note : Refer to the Installation Manual for the wire connections.

Do not leave the vehicle unattended with the dome light switch in the **ON** position, as this could result in a discharged battery.

3. Connect Additional AV Input

1. The audio/video inputs may be connected to Audio/Video device directly or through a Junction Box which can connect to a Video cassette Recorder(VCR), video game system, or other audio/video devices.
2. AUX Video Input (Additional)
The unit will accept an audio/video input through the RCA jacks located on the side of the unit.
The audio/video device could be a video game system, Video Cassete Recorder (VCR), or other input device.

4. Region Code

1. Both the DVD player and disc are coded by region.
2. These regional code number must match in order for the disc to play.
3. This unit's code number is **region number 1**. Other regional codes cannot be played in this unit.
If not, the unit will display "Invalid Region"
4. Types of Discs your DVD will play
 - DVD discs – DVDs discs which contain video.
 - Audio discs – Audio CDs contains musical or sound content only.
 - MP3 discs – A disc that contains audio files (for example, a CD-R with downloaded MP3 files).

Acknowledging Special Precautions and the FCC Industry Canada Notice

Cautions

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC compliance Information

This device complies with part 15 of FCC Rules.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received.

Including interference that may cause undesired operation.

Information to User

This equipment has been tested and found to comply with the limits for a Class B digital device, Pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio Frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try

to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.
