Subject: Explanation on BT Module bearing BLE function

Product Description: D-AUDIO

Model No.: iLX-F259

FCC ID: QV3ILXF259

IC: 23578-ILXF259

To Whom It May Concern:

Our BT Module bears BLE function itself, therefore it is natural that the BT Module DATA SHEET bear BLE function. For this iLX-F259 model, as we adopted BT(BDR/EDR) only, in result, when manufacturing, we disable the BLE function by using software and enable BT(BDR/EDR) only.

Sincerely yours,

/ Ju Hyung Lee

/ Deputy General Manager
