**Re: FCC Class II Permissive Change Request for Novanta Corporation FCC ID
FCC ID: QV5MERCURY6E-A**

To Whom It May Concern:

We are submitting an application for Class II permissive change to the FCC for approval for the Novanta M6e-a with FCC ID QV5MERCURY6E-A (original grant date: 2011-2-25). Here are the changes:

- Power amplifier replacement due to end of life component
- SAW filter part number – update filter resulting in no overall frequency change
- Updated Radio Equipment Standards Specification from RSS-210 to RSS-247

There are no changes to the product details specification. Testing has been performed and confirmed this product continues to meet the requirements of the applicable rules of the FCC.

Sincerely,

1/29/2019

Eva Gravius
VP Engineering
